**Chukar Cherry Company Announces Nationwide Recall of Products Containing Pistachios Because of Possible Health Risks**

**FOR IMMEDIATE RELEASE --** Prosser, WA (April 2, 2009) – Chukar Cherry Co. of Prosser, WA announced today that it is voluntarily recalling from nationwide distribution specific “best before” dates of Chukar brand and Norm Thompson brand packaged products containing pistachios from Setton Pistachio of Terra Bella, Inc. sold directly to consumers or resellers due to potential contamination with the *Salmonella* organism. Chukar Cherry Co. has received no reports of illness related to their products containing pistachios; the company is issuing this recall as a precaution. This potential contamination is not related to the recent peanut/peanut butter recalls.

*Salmonella* can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e. infected aneurysms), endocarditis, and arthritis.

This voluntary recall affects products containing shelled, roasted pistachios shipped on or after October 27, 2008. The packaged products were distributed throughout the United States via various retail outlets and gift shops as well as Chukar retail stores, mail order catalog, and internet store. Product was also sold in bulk in western Washington at REI, Ballard Market, Town & Country Market, and Central Market; in greater Chicago, IL and Troy, MI area Whole Foods; at Good Earth Natural Foods in Spearfish, SD and at Neuchatel Chocolates in New York, NY.

The affected products below may have been sold individually or as part of a gift basket:
